DETAILED ACTION

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

2. Claim 1 is presented for examination.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 2194

4.(1) Claim 1 is rejected under the judicially created doctrine of obviousness - type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,654,881. Although the conflicting claims are not identical, they are not patentably distinct from each other. Claim 1 of the present application is a program product claim of claim 1 of U.S. Patent No. 6,654,881.

4.(2) Claim 1 is rejected under the judicially created doctrine of obviousness - type double patenting as being unpatentable over claim 1 of U.S. Patent No. 6,496,839. Although the conflicting claims are not identical, they are not patentably distinct from each other. In particular, claim 1 of the present application is met by claim 1, lines 1-8 and 11 of U.S. Patent No. 6,654,881. Note the equivalence of unique mount manager identifier / unique mount name.

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:
The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "the mount manager identifier" in line 10. There is insufficient antecedent basis for this limitation in the claim. For the purpose of art rejection, it is interpreted as "the unique mount manager identifier", as best understood and as it appears to be.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
